

2021 Hybridizers' Roundup

Warmest Greetings to our CVIDS Friends from
Jonathan and Susie Poulton in Fort Collins, CO!
We miss you all dearly!

Our New Home in Fort Collins

If I ever bitched about Iowa soil, please forgive me!

I had not yet experienced Colorado soil!

Colorado soil is THE WORST!

A heavy clay that must be removed, recycled and replaced by good soil.

If you are extremely lucky, you can find a good buddy to help you!

If I ever bitched about Iowa rainfall, please forgive me!

I had not yet experienced Colorado rainfall!

Fort Collins receives only 16 inches per year, so irrigation systems are required.

If I ever bitched about deer, rabbits, squirrels and groundhogs in Iowa, please forgive me!

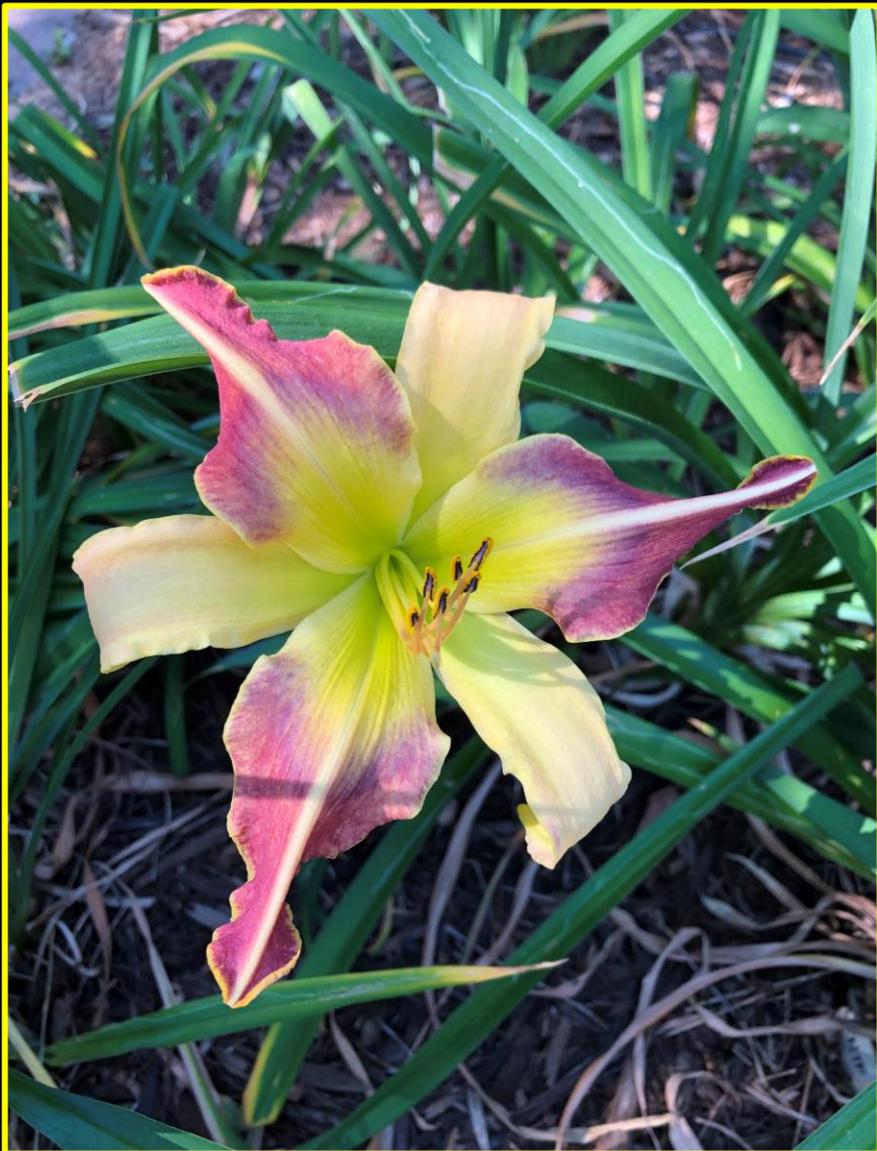

Colorado has something to match those!

Now, let's get down to business!

Which JP seedlings survived
the trip across Nebraska
and their first Colorado winter?

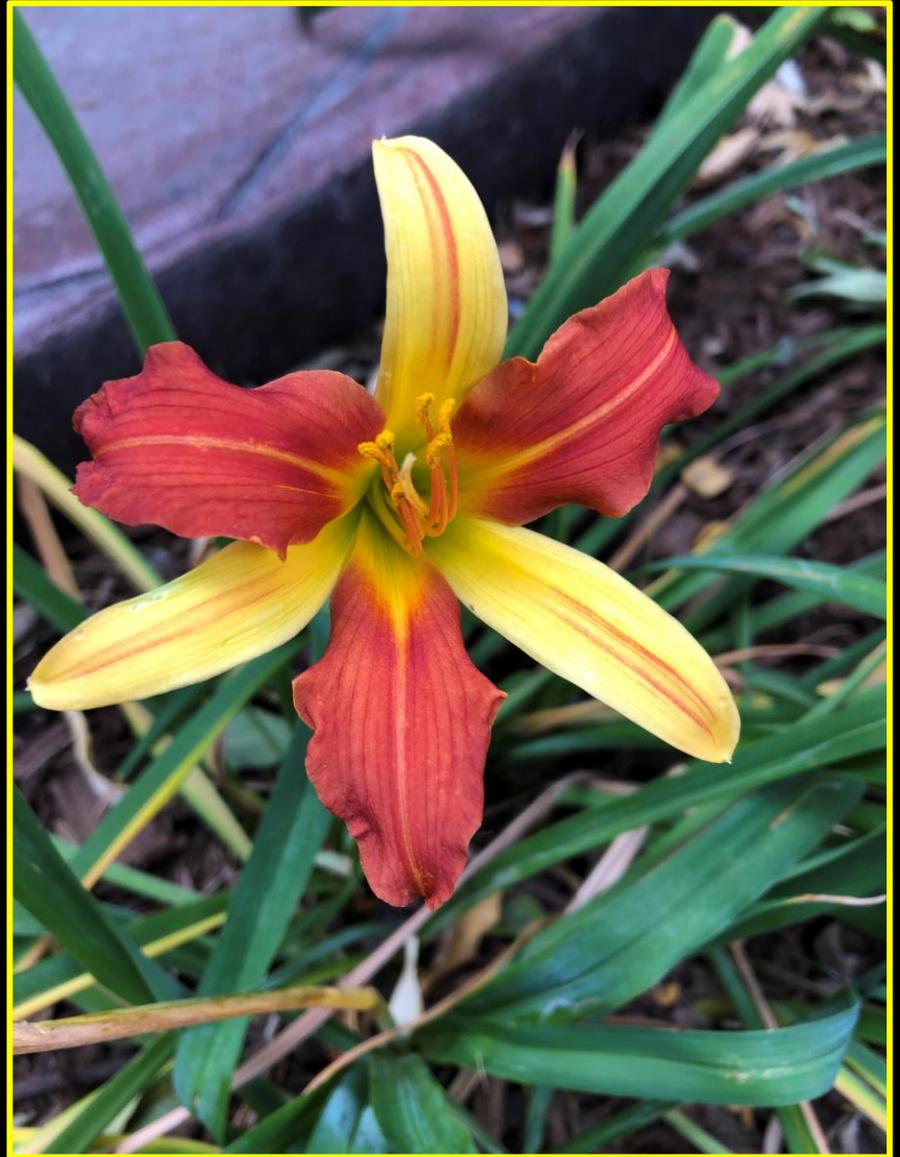

14-391-3 Bellevue Beauty x Delaney's Rainbow

15-5-1 Bluebird Butterfly x Unshakeable

'One for Liz' (Poulton, 2019)

9-324-4 Sdlg x Sdlg
