

# Cedar Valley Iris and Daylily Society

Volume 5, Issue 3

March 2013

## FROM THE PRESIDENT

The snow outside my window says winter but the calendar says spring. It is time to start thinking about our upcoming events. After the April meeting we will not see each other until the spring plant sale. That means I have to plan on toting around yet another box of stuff to the meetings—plant labels.

The club purchased a new supply of plant labels for the regional and they will be available at the next two meetings. Take as many as you think you will need for the two plant sales, May and August, and the returning club plant returns. The new labels are the same weight and just as strong as the original orange labels but these have a shiny surface. Unfortunately pencils and hard point pens do not write well on them. Sharp permanent markers or any felt tip permanent marker will work very well. We also have a small supply of Identi Pens and if we need them, can purchase more.

Nancy Rash has generously agreed to fill the last board position, that of Hospitality Chair. While we have many volunteers to help with the plant distribution, we do need some helpers for the hospitality portion (breakfast and other refreshments). There is a budget for hospitality so workers are not expected to make the refreshments, but to organize and set up. Please sign up at the meeting to help Nancy get the refreshments organized.

There are eight Landscaping With Daylilies books still available. If you pre-ordered a book, try to pick it up soon. Any that are left will be sold when an opportunity arises. The club price is \$35.45.

Karol Emmerich, Region 1 President, has asked us to host the 2019 regional meeting. The board would like to request approval from the members before committing the club. Many dedicated volunteers working very hard made the regional meeting a great success. It was very rewarding financially and emotionally and showed our club off very well. The regional meetings rotate in the region. We have not taken our turn as often as some other clubs have but the board is hopeful that with the positive outcome of last year's meeting CVIDS will get back onto the rotation.

The board requests that we discuss and vote at the March meeting on commitment to the 2019 regional meeting.

See you at the March meeting.

Zora

## MINUTES FROM FEBRUARY 9 MEETING AT SOLON PUBLIC LIBRARY

Donna Denly, Secretary

President Zora Ronan opened the meeting at 1:05 pm and introduced our member and speaker Lynn Moffit. He told us about the history of quilts and the importance of them and continued on with his talent on barn quilts. Gerald Hobbs then gave us an insight on hybridizing daylilies.

After the break, the business meeting opened at 3:05 pm. An attendance sheet was passed around for all to sign.

Gary Oster made a motion and Dave Appelquist 2<sup>nd</sup> to approve the minutes as written.

A Treasurer's report was given.

Keith Riewerts was taking pictures for the update to the picture directory. He also mentioned that this is a good time to get any pictures to Jonathan for the website, as he is not as busy as he will be later on.

Members signed up to help with the Winter Garden Fair (Feb. 16, Kirkwood, Cedar Rapids) and The Art of Gardening (March 16, Muscatine) coming up.

The meeting was adjourned at 3:20 pm, and door prizes were awarded.

Program Chair Susan Minger reported on the summer garden tour scheduled for July 6. It will include Lynn/Sherry Moffit and Robert/Suzanne Moffit gardens. She is looking for another one/two between North English and Iowa City.

Caroline Jones is planning on having a garden open house in memory of Jack this summer also.

Keith has about completed his order for club plants and they will soon be posted on the website for viewing and 'drooling'.

Jackie is going to plan the Iris Tour that is scheduled in May.

Meeting adjourned at 3:25 pm.

### CLUB PLANT ELIGIBILITY

By Zora Ronan

It is sometimes confusing trying to determine who is eligible for a club plant. Several members asked at the last meeting how exactly that happens. I hope this will clarify the process. Two elements are required.

The first element for eligibility is paid membership dues for both the current and previous years. So to receive a plant in May 2013, a member would have paid their 2012 dues by April 1, 2012 and the 2013 dues by April 1, 2013.

The other element for eligibility is that the member contributed to the club by performing any two of the following 10 items during 2012:

1. Attend two club meetings (includes garden tour but not the banquet)
2. Serve as a CVIDS board member
3. Chair or co-chair a committee
4. Donate plants to a club sale
5. Assist at the CVIDS plant sales or auctions
6. Present a club program
7. Host a CVIDS garden tour
8. Write an article for the Newsletter
9. Bid in the Silent Auction of returning club plants
10. Perform any other activity that contributes to the success of the club.

### FOCUS ON OUR MEMBERS

We have so many members spread over quite a large area and we want to make sure that everyone in the club knows what is going on. If you are participating in an activity or are having an open-garden or know of an activity that would be of interest, let us know and it will be posted on our website.

## **CVIDS Membership Survey Results**

By Nancy Carlisle, Vice President

Forty-seven members took the time to complete and return the survey. Data responses are as follows:

- Less than 1 year: 5
- 1 to 5 years: 17
- 5 to 10 years: 10
- Over 10 years: 15

New members were shy, with no written comments. They were referred by members' invitation. Two are AHS members. They wanted daylily topics, guest speakers, and garden judging workshops. Top five projects were plant sales, distribution, garden tours, newsletter and meetings. No interest in iris topics.

1-5 year members commented on wanting hands-on information on care of daylilies, companion plants, support for botanical center (brochures, labels, and fertilizer), and the development of a library of books and DVDs. These members wanted programs on pictures of members' favorite daylilies, workshops on garden art, garden judging, pollen dabbers, daylily soils and fertilizers, and color and types of daylilies. Fifty percent wanted more information on iris. A comment "Really loved the hybridizer program." Five of the 1- to 5-year group are members of AHS. The top five projects mentioned were speakers, club tours, meetings, plant sales, and the newsletter.

5-10 year members were not vocal. Interests were in a garden judging workshop and going on the Minneapolis Bus Tour. Suggestions for speakers were on daylily pests and diseases. Favorite events are: photo contest, garden tours, club plant distribution, meetings and newsletter/website. Nine members are part of AHS. Three requested information on iris topics.

The over-10-year members had a lot to write in their comments. These included: invite Lee Pickles, and other nationally known hybridizers to speak; include items from AHS; establish and maintain a civic garden in honor of Fred McDowell; offer programs to civic organizations; donate plants to community centers or libraries and help maintain those plantings; discuss outstanding cultivars and those that are poor choices for our region; bus tours; photography workshop; landscaping workshop; garden-related workshops with hands-on making of items; craft items like a

mini fountain were selected or written in. "Enjoys visiting with members" was a frequent write-in. "Everything is a 10!" "Miss the introduction of members with a roll call item involving daylilies." 100 percent of the over-10-year group were members of AHS. Five wanted some iris topics. All were originally invited to join CVIDS by another member.

**In summary:** Ask a person to join our great organization. The Board is addressing the desire for information on daylily topics by having 15 minute presentations this year at society meetings.

Thanks for your valuable input.

## **CLUB PLANT ELIGIBILITY (CONT.)**

I try to keep accurate records but sometimes someone's contribution is overlooked. Last year was a very unusual year. Both of the plant sales were cancelled, as was the August Silent Auction. That eliminated some opportunities but the Regional provided opportunities that normally don't exist. If you think you qualify for a 2013 club plant but are not on the list, please contact me. Several members have been added to the list because they pointed out their contributions that I had missed.

The tabulation for the 2014 club plants started again in January. Activity during 2013 will determine eligibility for a 2014 club plant. To qualify for a 2014 club plant dues must be paid by April 1 of this year, plus two of the activities during 2013, plus 2014 dues paid by April 1, 2014.

Members who have qualified for 2013 club plants, as well as members who have otherwise qualified for 2013 club plants but need to pay 2013 dues by April 1, are listed on the following page.

## **ATTENTION HYBRIDIZERS**

CVIDS will host the 2015 Regional in Marshalltown. Dave and Shirley Halverson will have a hybridizers' garden and a seedling bed at their garden, Turkey Ridge. All attendees can vote for their favorite seedling during the tour. The Halversons request that you send seedlings and/or named cultivars to them by September 1. That will ensure that the plants look good for the 2015 Regional Meeting. (Turkey Ridge Garden, 2031 Vance Avenue, Marshalltown IA 50158)
