Greetings!

I thank the many of our friends for your visits and orders last year. I work hard to put our daylilies in your gardens. Where else would someone dig daylilies for under \$5.00? I cater to area gardeners and dare not advertise nationally at these prices. Despite this I sell out of a few each year and replace them with some of the best available, and reduce prices on expensive ones each year!

I substitute only with your permission, so if substitutions are acceptable please give us some suggestions. I enjoy giving bonus and may select it from your substitution list. Substitution will be of equal or greater value.

Daylilies have been kept a secret for too long and they just keep getting better. Join the passion!

I ship double division plants. Send full payment with order. \$8.00 handling fee with each order shipped plus 50 cents per plant for each plant over 5. I ship toward the end of August into September. The garden is state inspected. Any plant under \$8 may be gotten late April thru May if you desire.
